

Now Outdoor Living Lives Longer

Imagine the Possibilities

Unleash your creativity with a material as bold and limitless as your imagination with the King StarBoard® family of polymer sheet products. Virtually anything you can make wood can be made with King StarBoard® Family of Products. King StarBoard® ST is environmentally stabilized to withstand the harshest outdoor conditions. The polymer sheet never needs painting or refinishing, works like wood and is easy to fabricate using common woodworking tools and techniques. King StarBoard® ST features a rich matte gloss finish on both sides of the sheet. It's an excellent construction material for cabinetry, furniture and architectural partitions.

Perfect for Today's Lifestyles

As beautiful as it is durable, King StarBoard® has been used by nearly every boat and yacht manufacturer since 1988. Now, the 25% stiffer King StarBoard® ST is finding its way into some of the world's finest homes and commercial properties. King StarBoard® ST gives your contractor the edge in creating fabulous outdoor living spaces that last a lifetime. Available in many standard colors and a variety of sizes and thickness, King StarBoard® ST helps you turn ideas into reality.

Worry-free in All Weather

King StarBoard® ST is known for its ability to endure the constant punishment of harsh outdoor conditions. It will not rust, delaminate or rot when exposed to UV, humidity or water. It is one of our most scratch-resistant polymers, making it an excellent construction material for cabinetry, furniture and architectural applications. The polymer sheet never needs painting or refinishing, works like wood and is easy to fabricate using common woodworking tools and techniques. This makes it a smarter option than wood, laminates and ordinary plastics. King StarBoard® ST is easy to clean. Visit our website, www.kingplastic.com for complete care and maintenance instructions.
